Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, 14-20 drawn to a method with simulation.
- II. Claims 8-13 drawn to a method with synthesis.

During a telephone conversation with attorney Richard Kotulak on 4/1/04, a provisional election was made without traverse to prosecute the invention of group I, claims 1-7, 14-20. Claims 8-13 are cancelled by examiner amendment per the attorney request, as follows:

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Kotulak on 4/1/04.

The application has been amended as follows:

In the claims

Claims 8-13 have been cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-7, 14-20 are allowed because the prior art does not teach or suggest a method of designing an integrated circuit chip having the steps of creating voltage islands by partitioning elements of a chip design according to similarities in voltage requirements and timing of power states of the elements; outputting a voltage island specification list having the attributes/information as recited in the claims; and simulating the chip design using an unknown voltage state propagation on voltage island cell outputs identified by a power-on/off control signal within the voltage island specification list.

This method utilizes voltage islands that operate at independent voltages and can be selectively gated to reduce chip power consumption.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Art Unit: 2825

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Buffet et al. (USP 6584596), Dangelo et al (USP 6324678) and Boyle et al (USP 6099580), relate to IC design; none of the prior art has the simulation manner as the present application; furthermore, Dangelo and Boyle lack the voltage islands; Buffet discloses voltage islands of solder bumps/pads/pins, while the present invention discloses voltage islands of functional blocks as shown in figure 1.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Dinh whose telephone number is 571-272-1890. The examiner can normally be reached on Monday to Friday from 8:30am to 5:00pm.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1782.
